PROJECTS

Portfolio : *AkankshaSingh_Portfolio*

AI Background Removal | Full Stack Project
Technologies : React JS, CSS, Clerk
- AI-powered background removal – Users upload images, and React processes them with AI, providing a transparent PNG.
- Full-stack app with Clerk authentication – Built with React and CSS, secured with Clerk Auth, and supports cloud storage.

Genius Guides (Commerce Industry Consulting Firm)
Skills Used: React.js, CSS, JavaScript
- Designed and developed a fully responsive website for Genius Guide, a Commerce industry consultancy firm, focusing on user experience and accessibility.
- Utilized React.js to create an interactive, dynamic, and user-friendly interface, enhancing the overall user experience.
- Optimized the website for performance, ensuring fast loading times and cross-platform compatibility.
- Included features such as service showcases, client testimonials, and contact forms to provide seamless interaction for visitors.

HETC Notes Hub
Technologies : HTML, CSS, JavaScript, React
- Developed a student platform for uploading, searching, and downloading academic notes with secure user authentication.
- Built an interactive React dashboard for managing user profiles, notes, and PYQs

Ecommerce Full Responsive Website (Frontend Part)
Technologies : React, Tailwind
- Built a fully responsive eCommerce frontend using React and Tailwind CSS, ensuring seamless cross-device user experience.
- Integrated modern UI/UX practices in a collaborative full-stack environment focused on frontend development.
